

## Wall telephone alpha open air

alpha open air – robust outdoor wall telephone

With the weatherproof telephone alpha open air, the elements will no longer rain on your parade when you want to make a call outdoors.

The alpha open air is the perfect choice for use in car parks, taxi ranks, outdoor stockyards, self-service areas in banks and also in sports grounds and other unobserved outdoor areas.

Whether it is installed on a wall or a pole, no matter it rains, snows or if the sun is shining: making a phone call is always possible.
